ANNOUNCEMENTS

Reminder: Duo Two-Factor Authentication is Coming Soon!

Action Required: No immediate action is necessary. You’ve been hearing about Duo Security from Technology Services, and the rollout of Duo two-factor authentication is almost here!

What is Duo, what is two-factor authentication, why do we need it, and how will it change my login experience?

If you’ve missed our previous emails, watch [this video](#) or visit our Duo web page www.fhsu.edu/duo to learn more.

When is this happening?

July 23: We will begin sending out enrollment emails. The emails will be sent in waves, starting with on-campus staff.

End of August: Everyone eligible to enroll in Duo Security will have received an enrollment email

February 2019: Duo Security will be required for many FHSU technology resources, for employees only

What are Duo Mobile and Duo Push?

Duo Mobile is Duo Security's free app that allows you to quickly and easily approve a second-factor authentication request using Duo Push. Duo Mobile is available for Android, iPhone, and Windows Phone.

With Duo Mobile and Duo Push, there is no need to waste time manually entering in passcodes. Just tap to authenticate right on your smartphone.

[Here](#) is an example of Duo Push in action.

What if I don't have a smart phone, or cell phone?

If a phone can receive a call, then it will work with Duo Security! The Duo Mobile app is the preferred second factor of authentication; however, you can also use phone calls and text messages to any phone number. You do not need to have a cell phone – Duo Security will work with your desk phone, home phone, and international numbers.

Who is included in Duo Security?

Currently employed faculty, virtual college faculty, adjunct faculty, staff, student employees, and graduate assistants WILL be required to use two-factor authentication with Duo Security in the near future.

The following users will NOT enroll in Duo Security: students, retired employees, volunteers, and employees who do not use a computer in their job functions.

What happens next?

1. You will receive an email from duo@fhsu.edu between July 23-August 31. This email will provide you **further instructions**, and tell you to expect your personalized enrollment email within 24 hours.
2. You will then receive an email from Duo Security <no-reply@duosecurity.com> including a personalized link that starts with <https://api-40a700c2.duosecurity.com>.
3. After verifying that the email is from <no-reply@duosecurity.com> and that the link goes to duosecurity.com (hover over the link to view the address, or tap and hold on mobile), **click the personalized link** to self-enroll with Duo Security.

Questions?

Please contact TigerTech 785-628-3478 for questions or assistance with enrolling or using Duo. Watch for future communication on the rollout of Duo from Technology Services, or visit our Duo web page for more information: www.fhsu.edu/duo.
